## **Tessellate and Visiant to Integrate Operations**

*Visiant President Jamie Wells to lead both companies  
Tessellate President Mary Smith to retire Dec. 31, 2018*

**SOUTHFIELD, Mich.**, April 5, 2018 — Tessellate and Visiant have announced plans to integrate, in a move that will strengthen operations and position the company as a leading market-shaper. Jamie Wells, president of Visiant, has been named president of both organizations.

Wells assumes responsibility for Tessellate and Visiant following the recent announcement that Tessellate President Mary Smith will retire Dec. 31 2018 after a successful 30-year career in health care services.

Wells previously served as president of Data Driven Delivery Systems (DDDS), which later became Tessellate. He played an integral role in the creation of both Tessellate and Visiant in 2017. He also served as chief development officer for Tessellate before becoming president of Visiant in 2017. Prior to his role with DDDS, Wells had been president of Verisk Health, Revenue and Quality Division, and Health Risk Partners, and held leadership positions with EDS and WellPoint, now Anthem, Inc.

Wells and Smith will collaborate on the integration of the two companies.

“Together, Tessellate and Visiant provide a complementary product and service portfolio that is unmatched. We will continue to grow our market share delivering the level of service that our clients have come to expect,” said Wells.

-more-

Tessellate offers custom solutions in provider engagement coordination, risk adjustment and quality improvement, while Visiant is a provider of business process solutions and services. Both organizations deliver best-in-class expertise backed by industry leading technology products.

“With this exciting integration, we will build upon our market position, offering the broadest set of products and services available in the marketplace,” said Wells.

###
